In The Loop

It's That Time Of Year Again!

For all of you beach-user groups out there, I'll bet you're planning a fall clean-up sometime in the next month or two. And if you're not...why not? The Naturist Society has always been (and always WILL be) extra protective of naturist public lands, so in that respect we certainly want to help. Please let us know if you could use any promotional material, and we'll send it out immediately.

Or, if you would like to document your clean-up with a story and/or pictures, that is just the type of thing that we would love to publish in *N* magazine. If you haven't familiarized yourself with *N*'s article and photograph submission guidelines, they are readily available in pdf form, at www.naturistsociety.com on the magazine landing page.

We're here for you, all you have to do is ask!

Links & Logos

Is the TNS logo on your website's home page? Does your site link to TNS? And does it include a brief narrative explaining what TNS is and how it serves the naturist cause? If the answer to any or all of these questions is "no," we ask you to reconsider. Keep in mind, too, that there's something extra in this for you. Promoting TNS on your website can help your group's bottom line; each new or renewed TNS membership processed by your organization adds \$5 to your coffers.

To download the TNS logo, or add a brief TNS narrative, simply go to the TNS

website, www.naturistsociety.com and click on "Resources." There is a link right there to download that very information. If you have any questions, please don't hesitate to give us a call at 800-886-7230.

You asked for it, so we're doing it! It seems the majority of the group and club leaders who attended the WNG asked that they receive "*In The Loop*" via e-mail. As of the October issue that will be implemented. Also, ITL will be available for viewing on the TNS website, on the "Network" page. All you need to do is let me know whether you prefer paper or "cyber."

Another autumn is upon us and another gathering season is behind us. I would like to take this opportunity to thank all you—from workshop presenters to attendees—for making 2009 a truly memorable gathering year for TNS. I know that sometimes it may seem that all of your time and effort and contributions might be taken for granted, but that just isn't the case, and in case we haven't said it lately, "thank you" everyone who made our lives a little easier this summer!

The Skinny

Our membership drive is going well, but it could be going better. Look for the update in the next issue of N magazine, and perhaps there is something that you could do to help? All it takes is some promotion of TNS—something I hope you're all doing already—and the next thing you know we'll have met our goal of 1000 new memberships in 2009. We can do it, I know we can! We have had several wonderful TNS members offer to subsidize a special gathering rate, and we are so grateful to them for their generosity.

I hope you'll enjoy the new look of the Naturist Network in the next issue. Please let me know what you think—your opinions and suggestions are always welcome. We are constantly striving to make the Network more user-friendly, and I hope we made a step in the right direction!

Finally, for those of you who are still wondering about the 2010 Eastern Gathering, just be patient a little bit longer—an announcement will be forthcoming! Happy Autumn!

Naturally,
Debbie

Do You Have One?

Several years ago, we offered an N magazine display box to all of our Network members who happened to sell the magazine in their office or boutique. We would again like to remind all of you that these boxes are still available, and we would be happy to send one to you at no charge.

Since N is not readily available in local bookstores or news-stands, we really rely on all of you to help us market it. If you don't already sell N magazine at your place of business, why not consider it? There is no other naturist publication like it, it really is the "cadillac" of naturist magazines!
