What is PassportSM and Mobile Health and Safety?

HTH Worldwide eqips global travelers with access to our global health and safety knowledge tools and databases online at www.hthtravelinsurance.com and via their mobile phones when they create their mPassport^M profile. Combined with HTH's 24/7 international medical assistance, these resources give travelers the peace of mind to circle the globe despite chronic health conditions, common travel-related illnesses and security risks.

mPassport is an important new way to manage existing and unanticipated health conditions by providing convenient access to destination-specific information.
